

Amjad AL zhour

Machine Learning Engineer

amjadzhour439@gmail.com

SUMMARY

Data Science student with hands-on experience in machine learning, data analysis, and visualization. Skilled in Python, SQL, and Tableau to build predictive models and extract actionable insights. Strong ability to work in team-based environments and deliver data-driven solutions.

EXPERIENCE

2024-08 – 2026-06

- Completed an 18-week data science program, mastering Python and TensorFlow for model development
- Developed and validated machine learning models using Python and TensorFlow, enhancing predictive accuracy
- Executed data preprocessing and feature engineering, optimizing model performance and reliability
- Collaborated on real-world projects, utilizing Agile methodologies to enhance team productivity
- Streamlined data analysis workflows, reducing processing time by implementing automated scripts

PROJECTS

Student Performance Dashboard (Tableau)

https://public.tableau.com/app/profile/amjad.zhour/viz/student_info_17338717480310/Dashboard2

- Developed an interactive dashboard using Tableau to analyze student performance trends across multiple metrics
- Enhanced decision-making by providing visual insights that identified key areas for academic improvement

Tech: Tableau

Laptop Price Forecasting

<https://www.kaggle.com/code/amjadzhour/laptop-dataset-cleaning-predict>

- Built a machine learning model using Python to predict laptop prices with accuracy
- Implemented data preprocessing and feature engineering using Pandas to enhance model input quality
- Applied regression techniques with Scikit-learn to optimize prediction accuracy and reliability

Tech: Python, Pandas, Data Preprocessing, Seaborn, Machine Learning Algorithms

Spam Email Classification

<https://www.kaggle.com/code/amjadzhour/email-spam-or-not-classification-acc-100>

- Developed an NLP model using Python and Scikit-learn, achieving accuracy in spam detection - Implemented text preprocessing with tokenization and TF-IDF to enhance classification performance

Tech: Python, Pandas, Machine Learning, Natural Language Processing (NLP)

Global Demographic Growth Analysis

<https://www.kaggle.com/code/amjadzhour/global-population-growth-2024>

- Developed data analysis scripts in Python to identify global population trends, enhancing data-driven insights
- Created interactive visualizations using Matplotlib and Seaborn to effectively communicate complex demographic patterns

Tech: Python, Pandas, Data Preprocessing, Seaborn, Machine Learning Algorithms

Student Performance Prediction

<https://www.kaggle.com/code/amjadzhour/student-performance-predictions>

- Built a regression model achieving a Mean Squared Error (MSE) of 1.6 using Python and scikit-learn - Minimized overfitting by implementing cross-validation and hyperparameter tuning, enhancing model accuracy

Tech: Python, Pandas, Machine Learning Models, Seaborn

SKILLS

Software Development

Programming
